Re: DT 06-067, BayRing Communications  
Access Charge Complaint  
Hearing Procedure

To the Parties:

On July 3, 2007, AT&T and BayRing jointly filed a Request for Hearing to be Conducted by Full Commission and for Confirmation of Other Hearing Procedures. In their request, AT&T and BayRing ask that the hearing scheduled for July 10-11-12 be held before all three Commissioners. The companies also request that parties be provided an opportunity to summarize prefiled testimony on direct and to file post-hearing briefs. The filing notes that Verizon, in concurring with the requests made by AT&T and BayRing, further proposes that a response to the last round of written testimony be permitted as part of oral presentations. AT&T and BayRing do not object to Verizon's proposal.

The Commission has granted the requests made, including the proposal that parties be permitted to address responses to the last round of written testimony as part of their oral presentations. The Commission notes that oral summaries of prefiled testimony should be completed within a reasonable timeframe.

Upon recommendation of Staff on behalf of the parties, the Commission has approved the sequencing of direct testimony and cross-examination as follows:

Presentation of direct:

BayRing-AT&T-Verizon

Cross-Examination of BayRing, AT&T witnesses:

BayRing/AT&T-One Communications-Sprint-Staff-Verizon

Cross-Examination of Verizon witness:

BayRing-AT&T-One Communications-Sprint-Staff

Sincerely,

Debra A. Howland  
Executive Director
